SUMMARY:

Full Stack Developer with expertise in JavaScript, TypeScript, React/Nextjs 14 and Python.

TECHNICAL SKILLS:

- **Frontend** – JavaScript, React Js, Nextjs 14, TypeScript
- **Backend** – Python
- **Database** – MongoDB

EXPERIENCE:

Junior Full Stack-Developer – Codesy Consulting | March 2023 – November 2023

- Collaborated on the end-to-end development of a project, demonstrating teamwork and mentorship. Designed and implemented responsive user interfaces (UIs) using Next.js and Tailwind CSS, showcasing proficiency in front-end technologies. Contributed to writing backend APIs using Python and Django, ensuring a comprehensive skill set across both front-end and backend development.
- Designed responsive UIs using Next.js and Tailwind CSS, wrote endpoints, conducted various data operations, and proficiently handled debugging. Highlighted strong skills in both front-end and back-end development, as well as effective problem-solving.

Web-Developer Intern – Codesy Consulting | September 2022 – February 2023

- Acquired foundational web development skills in HTML, CSS, and JavaScript, showcasing practical expertise through independent UI projects.
- Demonstrated proficiency in React with CRUD applications and collaborated on projects with Angular, displaying teamwork and adaptability across different technologies, contributing to a client's production application.
